Installation Instructions for Armonia and the Void Bias Patch

Congratulations on the purchase of your new Bias amplifiers. This guide will take you through the installation process of the software so that you can start using the DSP.

Void Bias Control Software Downloads

The software used to control the Bias range of amplifiers is called Armonia, this can be downloaded from the link below

http://forum.voidaudio.com/uploads/public/Armonia.zip

or navigate to the support page as detailed in page 2.

YOU WILL NOT BE ABLE TO CONTROL BIAS AMPLIFIERS WITHOUT THE VOID BIAS PATCH! IF YOU DON'T HAVE THIS PATCH YOU WILL NOT BE ABLE TO CONTROL THE BIAS RANGE. THIS WILL RESULT IN YOUR BOSS NOT BEING VERY HAPPY AND YOU MAY BE COLLECTING FOOD TOKENS ON THE WAY HOME...

Contents
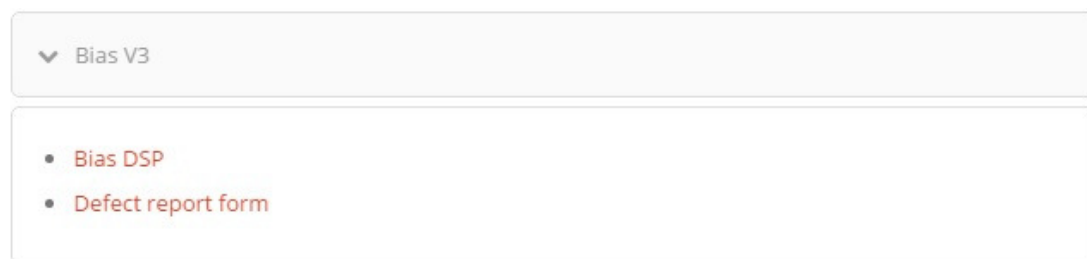

1.0 Software Download

1.1 Please visit the support page on our website

www.voidacoustics.com/support

1.2 Scroll down the page until you find one of the following options
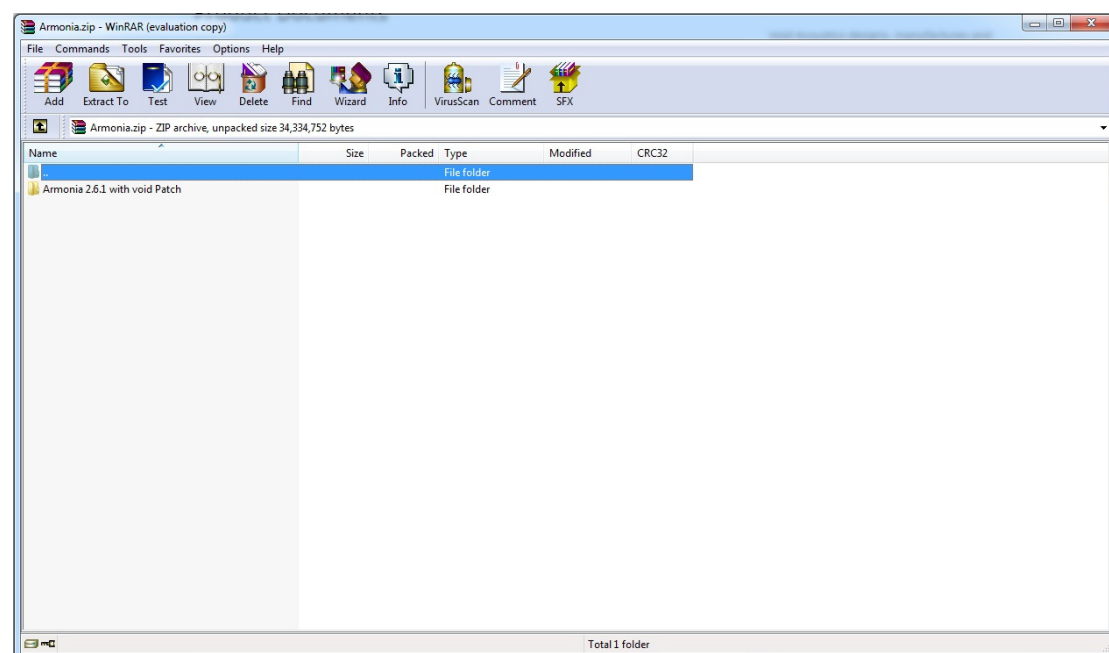

- Bias VQ
- Bias V3
- Bias V9

1.3 Click the Bias link you have selected to open the drop down menu

1.4 Use the mouse cursor and left click on the **Bias DSP** link, this action will start an automatic download of a Armonia.ZIP from our servers.
*If the download does not start automatically then right click **Bias DSP,** then select **Save link as...***

1.5 When the Download has finished use WinRAR or similar to extract the file **Armonia 2.6.1 with Void Patch** and save them to your hard drive. *Do not run the setup file with out extracting, this could cause errors with the installation.*
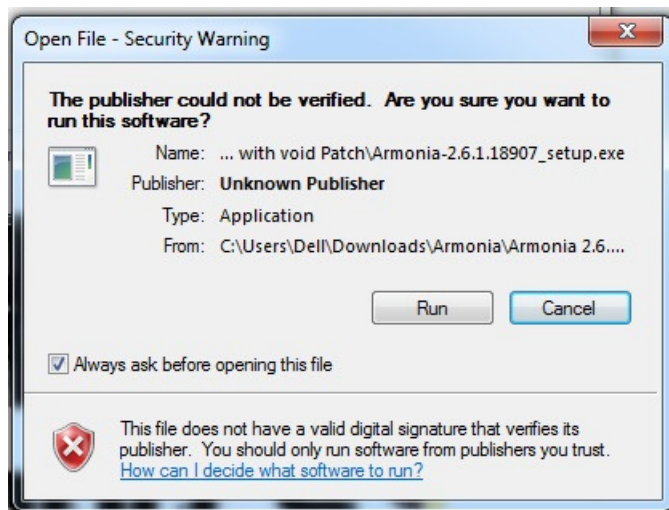

2.0 Installation of Armonia

2.1 Find the directory where you've extracted the Armonia.ZIP file to, *default using winRAR is /downloads/Armonia/Armonia 2.6.1 with Void Patch*

2.2 Double-click the **Armonia-2.6.1.18907_setup.exe**
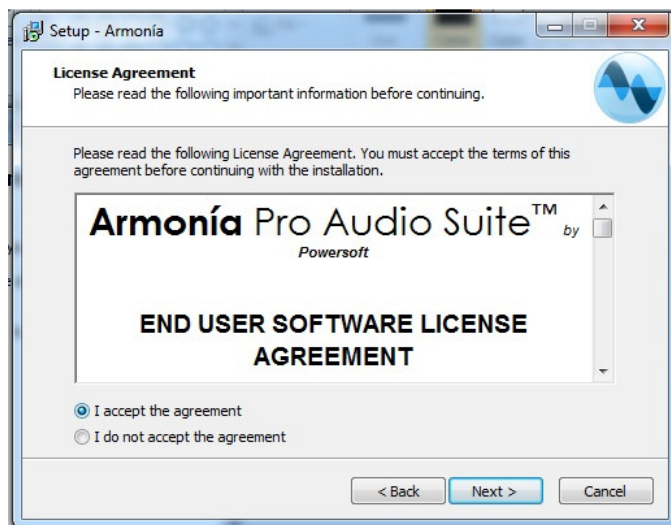

This will initialize the installation procedure

2.2 You will be prompted by a windows security notification, click **Run**

2.3 Welcome to Armonia Setup Wizard, click **Next** to continue with the installation

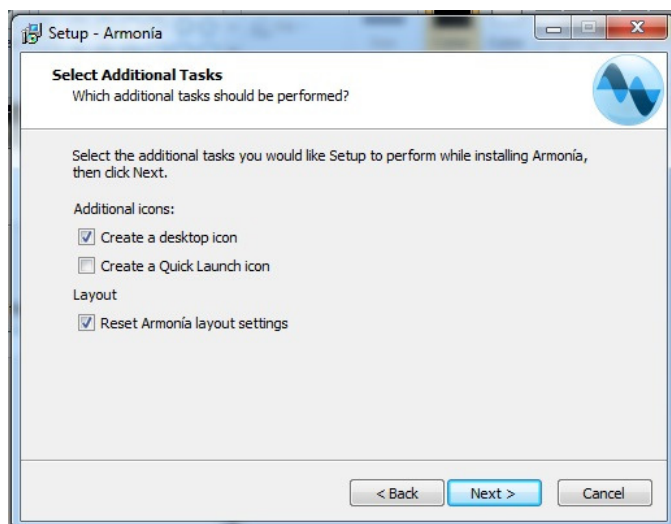

2.4.1 Read the license agreement, select **I accept the agreement** then click **next** to continue
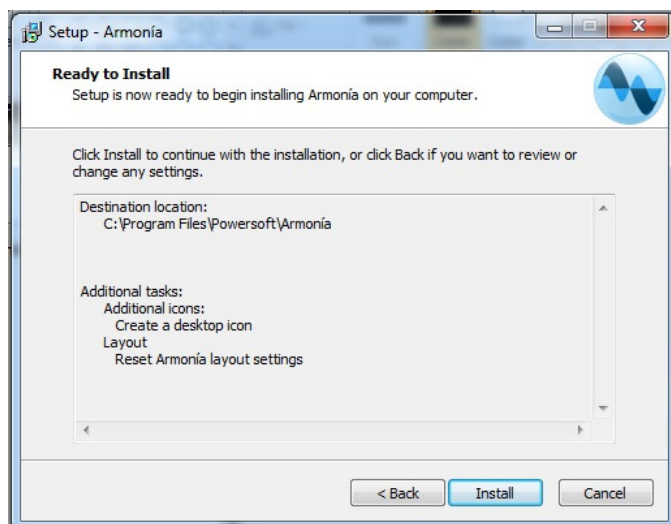

2.5 Select the destination folder for the installation then click **Next** to continue

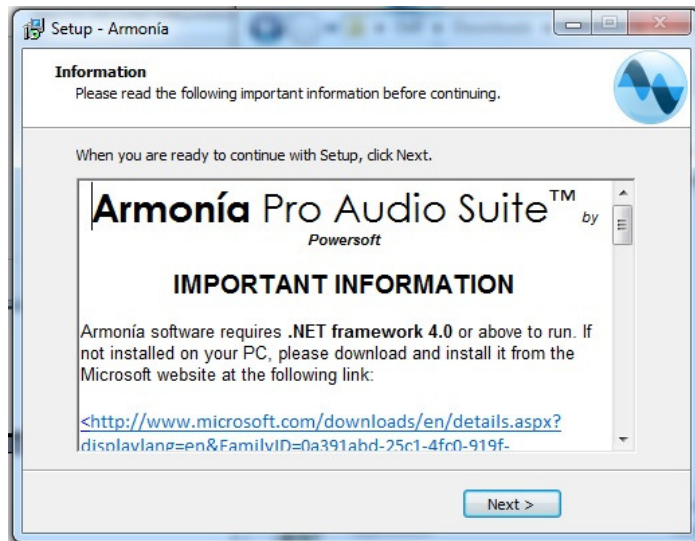

2.6 Select the additional tasks you would like the installer to place on your machine the click **Next** to continue

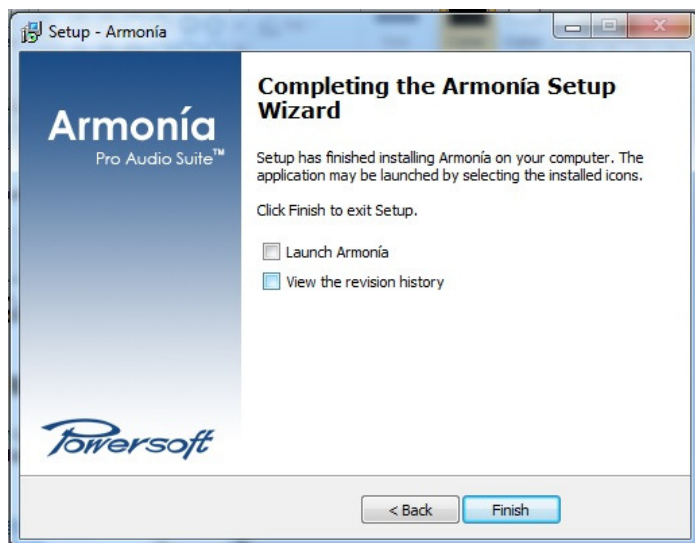

2.7 Review the installation settings, if you are happy then click **Install** to install Armonia

2.8 When the installer has finished installing Armonia it will open the Important information window detailing it's configuration and minimum system requirements for control, please read the dialogue and ensure your machine has the correct *.NET framework 4.0 or above* then click **Next** to continue.

2.9 Now the installation is complete you will be prompted with this window

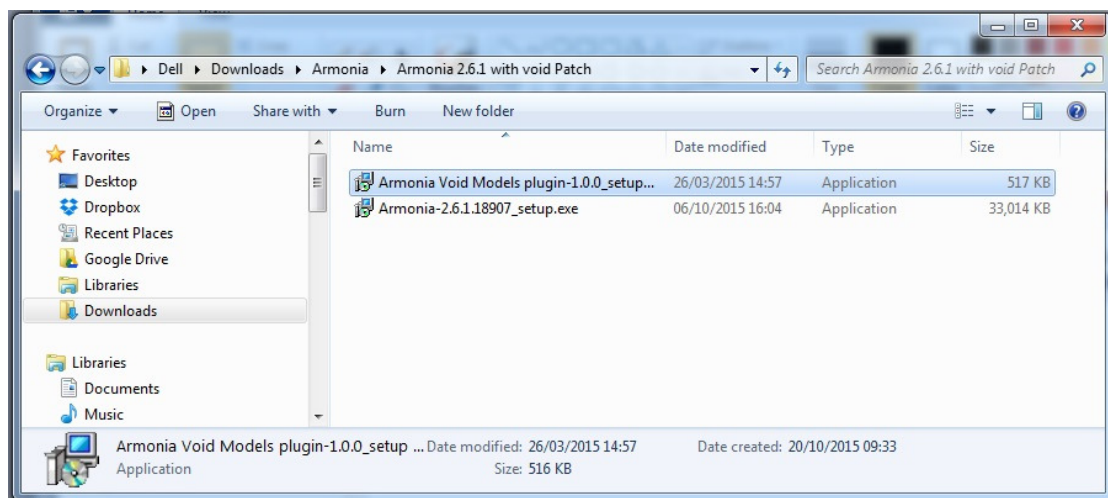

2.9.1 **Do not launch Armonia,** un-check the **Launch Armonia** Box and complete the installation of the Void Bias patch in section **3** of this guide.

3.0 Installation of the Void Bias software Patch

This patch must be installed before Armonia will be able to recognize the Void Bias Amplifiers, you must ensure that
- Armonia is installed on your Windows computer (*see section 2.0*)
- Armonia is not running

3.1.1 Locate the directory where you have extracted the Armonia.ZIP file (*Step 1.5*)

3.1.2 Double click on **Armonia Void Models plugin-1.0.0_setup**

3.2 You will be prompted by a windows security notification, click **Run**
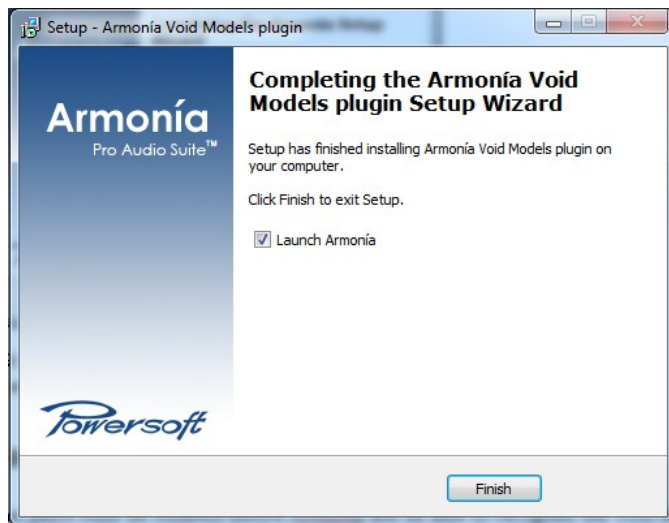

3.3 Welcome to Armonia Void Models plugin Setup Wizard, click **Next** to continue with the installation

3.4 Ready to install, click **Install** to continue

3.5 The Void Bias Models Patch has finished installation, check the **Launch Armonia** Box the click **Finish** to launch Armonia

Once you have followed these procedures Armonia and the Void Patch Files will be successfully installed on your machine. If you have had any problems with this installation process please follow the un install procedure in the troubleshooting guide in section 4

For further information on the operation and functionality of the Armonia software platform please see the Armonia user guide which is located on the support page under the Bias section

4.0 Troubleshooting

Should you of had any problems with any of the above installation process we advise that you follow these steps

Please try.
- Reboot the PC make sure the Armonia thread is not running in the task manager.
- Uninstall Armonia
- Delete the following folders from your hard disk:
    1. C:/Users/Public/Public Documents/Powersoft
    2. C:/program Files/Powersoft

- Type in the explorer path %appdata% and delete the folder "Powersoft/Armonia"
- Reboot the PC
- Follow the installation guide of Armonia and Void Bias Patch as detailed in steps 1, 2 and 3 of this guide.

Should you have still have problems please contact your official Void Acoustics Dealer with the following information

- Version of Armonia being installed
- Version of Bias Patch being installed
- Windows machine operating system
- Computer type (Mac/PC/Tablet)
